

“ Hi, my name's Allie and I'm a junior at Seaholm High School in MI. Today my health class watched the DVD of Sam, and I just wanted to say thank you. So many of my friends needed to see this, and so many of them just took into perspective how dangerous drinking can be. Finally we were shown a DVD that wasn't just facts on why drinking is bad. It's movies like this that really impact our decisions. I just wanted to say thank you, and let you know that your DVD really has made a huge impact on students. Because of Sam and this movie, so many lives will be saved, and I wanted it to be recognized how much it truly means! ”

Thanks again :)
